Confused About Where to Go for Care?

Smart health care choices may save you money.

Sometimes it's easy to know when you should go to an emergency room (ER). At other times, it's less clear. Where do you go when you have an ear infection, or you are generally not feeling well? The emergency room can be an expensive option. The chart below may help you figure out when to use each type of care.

When you use Blue Cross and Blue Shield of Oklahoma (BCBSOK) in-network providers for your family's health care, you usually pay less for care. Search for in-network providers in your area at **bcbsok.com** or by calling the

Customer Service number on the back of your member ID card.

24/7 Nurseline¹

The 24/7 Nurseline can help you identify some options when you or a family member have a health problem or concern. Nurses are available at **800-581-0407**, 24 hours a day, seven days a week, to answer your health questions. 24/7 Nurseline is available to you at no additional cost as part of your health plan.

Doctor's Office

- Office hours vary
- Generally the best place to go for non-emergency care
- Doctor-to-patient relationship established and therefore able to treat, based on knowledge of medical history
- Average wait time is 24 minutes²

Retail Health Clinic

- Based upon retail store hours
- Usually lower out-ofpocket cost to you than urgent care
- Often located in stores and pharmacies to provide convenient, low-cost treatment for minor medical problems

5

- Generally includes evenings, weekends and holidays
- Often used when your doctor's office is closed, and there is no true emergency
- Average wait time is 11-20 minutes³
- Many have online and/or telephone check-in

\$\$\$\$

Hospital ER

- Open 24 hours, seven days a week
- Average wait time is 4 hours, 7 minutes⁴
- If you receive care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- Multiple bills for services such as doctors and facility

\$\$\$\$\$\$

Freestanding ER

- Open 24 hours, seven days a week
- Could be transferred to a hospital ER based on medical situation
- Services do not include trauma care
- Many freestanding ERs are out-of-network. If you receive care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- All freestanding ERs charge a facility fee that urgent care centers do not. You may receive other bills for each doctor you see.⁵

\$\$\$\$\$\$\$

If you need emergency care, call 911 or seek help from any doctor or hospital immediately.

¹ 24/7 Nurseline is not a substitute for a doctor's care. Talk to your doctor about any health questions or concerns.

Urgent Care Center or Freestanding ER

Knowing the Difference Can Save You Money Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs may be higher. A visit to a freestanding ER often results in surprise medical bills that may be 10 times the rate charged by urgent care centers for the same services.² Here are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but include EMERGENCY or ER in facility names.
- Are open 24 hours a day, seven days a week.
- Are physically separate from a hospital.
- Are subject to the same ER member share which may include a copay, coinsurance and applicable deductible.

Find urgent care centers³ near you by texting⁴ **URGENTOK** to **33633**.
