Companies save on costs, employees receive better care. That's an all-around win.

When employees don't have an effective source of primary care, they turn to emergency and urgent care instead. Improper utilization proves costly for your business. Remedy Health offers unlimited access to primary care - lowering your health care coverage costs and increasing employee satisfaction, recruitment and retainment.

How does Remedy work with insurance?

The short answer is, however you like.

Use Remedy Health without insurance, with a healthshare plan, with a fully insured plan, self-funded plan - or anything in between. About 70% of Remedy Health members have insurance, and Remedy Health complements all models of health coverage. We're happy to coordinate conversations with you and your insurance liaisons to find the best solution for your organization.
